### ***IT'S A HALLOWEEN MISSION, START THE COUNTDOWN!***

- Before the Mission can begin, kids need to get together and do the Rocket Dance (includes patting their knees) to give Rocket enough energy to blast off!
- Next, be sure to set everyone down at the craft area so that they can get to work on their special spooky costumes! Let each child choose whether they want to be a pumpkin like Annie, a bat like Quincy, a spider like Leo, or a witch like June. Working on creepy crafts side-by-side really gets a spooky party started!
- With everyone looking their scary best, it's time to build your own candy apples! And when the going gets sticky, the sticky get hungry! Let all the little goblins eat their handiwork!
- Now it's time for games! Get the guys and ghouls together for a game of pin the sticker face on the pumpkin.
- When these All Hallow's Eve shenanigans make your guests feel all hollow inside, fill 'em up with Spooky Cookie-Cutter Sandwiches and Creepy-Crawly Cupcakes – all washed down with some Frightfully Fizzy Fruit Punch.
- Before it gets too late, be sure to take a picture of the spooktacular brood so that you can send everyone a frighteningly fun framed photo.
- Phew! Now that everyone is so pooped they can barely say "boo!" It's time to take their treat bags and go home. Good-bye and good goose bumps!
