

# SPECIAL AGENT OSO PARTY FAVORS

Spot on, kids (and grown-ups!). You've earned your Party Favor Awards! But, just as Oso's training missions are never easy, neither is this final assignment — unless you're very skillful at following a certain bear's paw prints to the cache of goodies!

## What you need:

- Bear paw prints you created for decorations
- Party favor bags filled with items such as mini flashlights, mini binoculars

## Instructions:

1. While kids are busy elsewhere during a portion of the party, ask a grown-up to take your premade paw prints and create a path to the party favor bags. To help keep kids heading in the right direction, you might consider drawing one directional arrow on each paw.
2. The paw prints don't all have to be on the floor — make this training exercise challenging by placing them on the ceiling, peeking out from behind a stack of books on a shelf, atop a doorway, etc.
