

Hey Parents,

Here are some handy

tips for your kids:

-  Never walk away from your parents -- especially in a crowded mall or shopping center
-  If you do get lost, stay in one place and avoid wandering around. Never, EVER leave a mall or store to look for your car in the parking lot
-  If you do get lost, stay calm and don't panic. Look for a policeman
-  Always know your home phone number and your parents' cell phone number, too
-  If all the numbers are too hard to remember, a grown-up should write them down on a piece of paper that you can carry with you
-  Make a plan with your parents on exactly what to do if you get lost
